

NEW YORK STATE SOCIETY OF RADIOLOGIC SCIENCES, INC.

June, 2022

Dear Colleague,

The NYSSRS is proud to announce our 2022 conference in Schenectady, New York to you, our trusted vendor partners for many years.

To start with, it will be in beautiful Schenectady, NY, just a few hours from NYC. This quaint location offers a fresh look for our conference. Schenectady is home of a nearby Casino, aquarium and many historical sites.

This in-person conference will be held September 22-24 and will be a DUAL event with RTANYS, the Radiation Therapy Association of New York State. This conference will offer unique networking opportunities along with at least 10 topical CE credits.

Our dual conference will be held at the DoubleTree by Hilton, five minutes from Rivers Casino. We anticipate over 175 people including Healthcare administrators, educators and students from both Radiologic Technologist and Radiation Therapy arenas.

This year's Sponsorship program is multi-tiered:

- Bronze: One six-foot table with logo on website and in program; recognition during meeting and 2 sponsor passes - \$500.00
- Silver: All bronze level items plus optional flyer included in attendee registration packet and recognition for sponsoring networking lunch - \$1,000.00

- Gold: All silver level items plus recognition for sponsoring student competition - \$1,500.00
- Platinum: All gold level items plus your representative introduces a speaker on Saturday and recognition for sponsoring the social event - \$2,500.00

In closing, I'd like to thank each of you for your support to our profession and organization over the years. Without you, none of this would be possible. Looking forward to seeing you in September!

All the Best,

Ray

Raymond A. Fradella – RT (R), MS
